BE-FT	SWARNIMA	Carbonated soft drink: Varun Beverages Pepsico, Greater Noida	Internship	
BE-FT	VINIT KAUSHAL	“Preparation of Sugar Free Cocoa Dark chocolate	Research Project	
BE-FT	VIVEK KUMAR	Development of protein isolates.	Research Project	
M.Tech-FET	RITIKA	Studies on the extraction and purification of bromelain from pineapple rind	Research Project	

M.Tech-FET	Sanyukta	Characterization and utilization of microgreens	Research Project	
M.Tech-FET	Fazil C	Valorization of agro-industrial waste in the development of nutritional bar using extrusion and plate-molding technique	Research Project	
M.Tech-FET	Nirbhay Kumar	Studied on vegetable oil based oleogels: formulation, characterization and its food application	Research Project	
M.Tech-FET	AYUSH ANAND	Development of micronutrients fortified high fibre extruded snack	Research Project	
M.Tech-FET	Divyanshi	Isolation and characterisation of starch of Tardi (Dioscorea bellophylla) and utilisation in development of antimicrobial film	Research Project	
M.Tech-FET	Twinkle Suri	Studying of real-time staling process of different indian breads via application of gray level co- occurrence matrix (glcm)	Research Project	
M.Tech-FET	Divya Arora	Development of bionanocomposite film from pectin of malta (Citrus sinensis) peel	Research Project	
M.Tech-FET	Parul hans	Development of native and modified potato starch hydrogels incorporated with meghalayan cherry pomace extract and their characterization	Research Project	
M.Tech-FET	Rekha R	Comparative study on natural deep eutectic solvent (nades) and ethanolic extraction of polyphenols from peanut (arachis hypogaea l.)Skin and development of polyphenol enriched peanut butter	Research Project	

M.Tech-FET	Samridhi Seth	Comparative study of native and modified corn starch hydrogels as carriers of bioactive compounds from meghalyan cherry pomace.	Research Project	
M.Tech-FET	Poonam Ananda Patil	Preparation and characterization of pasta from colored varieties of wheat (Triticum aestivum)	Research Project	
M.Tech-FET	Shashank Wirutkar	Development and Characterization of cream honey and its rheological analysis	Research Project	
M.Tech-FET	Udita Singh	Hydration kinetics of mung bean and impact of germination on physico-chemical characteristics of malted flour	Research Project	
M.Tech-FET	Seerat sharma	Studies on the extraction of resistant starch from jackfruit seeds using various techniques	Research Project	
M.Tech-FET	Adarsh Kumar Singh	“Optimization of drying process for better quality retention of dried beetroot”	Research Project	
M.Tech-FET	Bakan Dnyaneshwar Prakashrao	Development of Micronutrients premix for fortified extruded Pasta	Research Project	
M.Tech-FET	Poonam Ananda Patil	Preparation and characterization of pasta from colored varieties of wheat (Triticum aestivum)	Research Project	
M.Tech-FET	Ekta Sharma	Extraction of bioactive compounds from neem and their utilization in synthesis of zinc and silver nanoparticles for developing composite film	Research Project	

M.Tech-FET	Anamika Sharma	Preparation, characterization and utilization of cross-linked and dual modified banana starch for stabilizing Pickering emulsion	Research Project	
M.Tech-FET	Kumari Diksha	Optimization and characterization of rose petal extract and crosslinked buckwheat starch based pH sensitive film	Research Project	
M.Tech-FET	Ekta sharma	Extraction of bioactive compounds from neem and their utilization in synthesis of zinc and silver nanoparticles for developing composite film	Research Project
