

JUPITER MULTI FRUIT PROCESSOR

ABOUT US

Jupiter Multi Fruit Processor was established in 1980 by Mr. Mahender Verma turning his passion for Food product processing into a small backyard enterprise and selling his products by the name of HIMPA. In 2004, he established new manufacturing facility in Industrial area, Tahliwal, Dist, Una, In 2009, Mr. Rohit Verma (B.Tech. in Food technology) S/O Mr. Mahender Verma joined the family business. With his innovative ideas, the plant is under constant upgradations and automation. Now we have fully equipped manufacturing plant with capacity of about 40MT/day.

Himpa established itself as a huge food products conglomerate, leading the food processing business in Himachal through its range of products and innovative flavours. Himpa has always stood for unparalleled quality, great taste and world class innovative products, customized for local taste buds.

We manufacture fruit based Beverages, Crushes, Squashes, Jam, pickles, ketchups, Sauces and Preserves in wide range of Pack sizes to suit customer requirement - Glass bottles to pet bottles, Sachets to Bulk Pouches.

We strive to serve consistently and innovatively the markets with best food products at competitive prices. The company is focused on planning and executing the conception, pricing, promotion and distribution of world class food products.

Capacity - 2 Ton per hour

Make - Cheema Boilers

2. Air Compressor (Screw Type)

Capacity - 98 Cfm

Make - Ingersol Rand

3. Reverse Osmosis Water Operated Plant

Capacity - 6000 Ltr/hour

Make - Shreya Consultancy

4. D.G. Set

Capacity - 140 kva

Make - Kirloskar

5. ETP

Capacity - 15 KLD

Make - Shreya Consultancy

Ready To Serve Beverage Section:

We have installed automatic processing line with capacity 2500 liters per hour and filling line capacity 90 BPM for beverage along with automatic sleeve applicator and collate shrink packaging Machine.

Proper hygiene and standard operating procedure is maintained for every process.

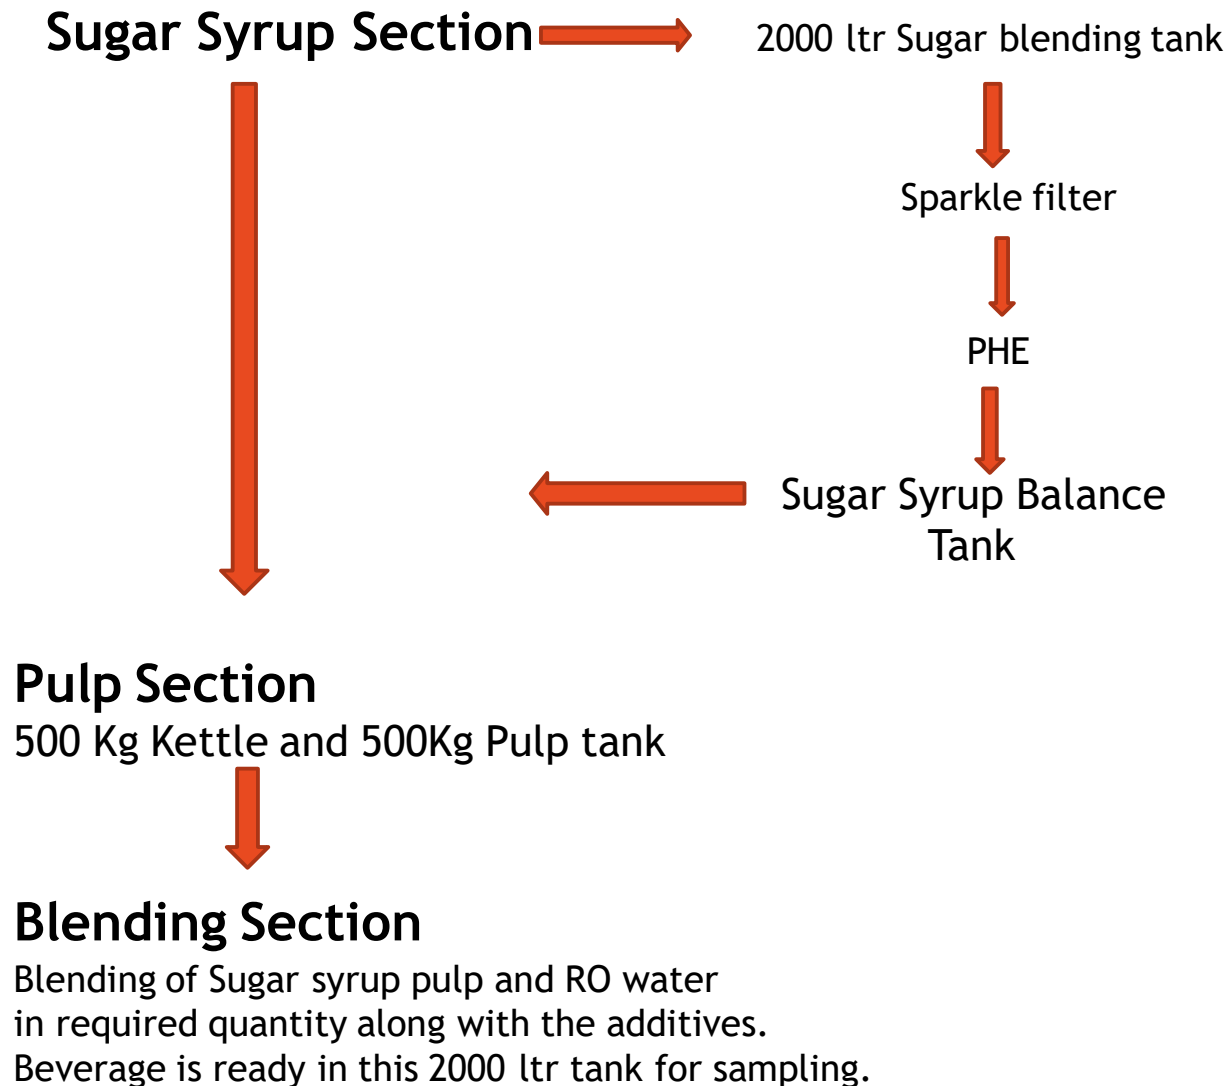

Cleaning In Place is carried out before and after every production.

Process wise flowchart is attached along with the pics.

Flow Chart for the Beverage Section

(Batch Size 2000 ltrs)

Homogenization

3000 ltr/hour homogenizer of Harvest make.

Ready Beverage Tank

Pasteurization

Pasteurization of juice is carried out at 95 deg C for 45sec having capacity of 2500 ltrs/hour with final filling temperature of 72 deg C.

Filling

By RFC having 18 head rinser, 18 head filler and 6 head capper having capacity of 90 bottles/min for 200ml pet bottle.

Cooling Tunnel

Hot filled beverage is passed through cooling tunnel having dimensions 20ft long and 5ft wide in which temperature of 72 deg C is reduced to 32 deg C.

INKJET CODING MACHINE

5 line inkjet coding machine is installed for coding.

SLEEVE APPLICATOR

Capacity 120 BPM

Collate Shrink

Automatic collate shrink in matrix of 6x4 i.e. 24 bottles.

Palletization

FG Store

For dispatch

THANK YOU

HIMPA
